

## **COVID-19 RECOMMENDATIONS**

If an individual tests positive for COVID-19, it is recommended that he/she isolate (stay home) for 5 days following symptom onset or positive test result, regardless of vaccination status. If no longer showing symptoms or symptoms are resolving, he/she may return to school on day 6 with no mask requirement, although a mask is recommended by the CDC through day 10.

The school district will NOT be conducting contact tracing. If you are aware that you or your child has been exposed, you are advised to monitor for symptoms for 10 days following exposure. If symptoms occur, you are encouraged to stay home.

Positive case counts will continue to be recorded on the district website for each school building.
